

tonsil | Tested dataset: tonsil

Exploratory coverage; no claim of a demonstrated GC fate mechanism.

A Captured cell states

22,478 cells; cell UMAP

B Captured clone coverage

Cells: 22,478

Cells with a clone: 11,570

Expanded clones: 670

Inferred programmes: 1

These are datasets already tested.

They are excluded from the main biological argument and GC-focused supplements.
